

# Have you ever wished you could draw this well?

#### How do you know you couldn't?

If you like to draw, you've probably tried your hand more than once at sketching scenes like the one above. But, chances are, you've run into problems—like getting buildings to "recede" into the background, for example. Or making water glisten the way it should. And after trying unsuccessfully a number of times, you may have decided that you just haven't got it"...that you'd never make it as in artist

I hat decision could be a serious mistake. For all you may need to get on the right track is some expert help...a few pencil touches, a few words of advice from a skilled art instructor who can tell you exactly what you're doing wrong, and show you exactly what you should do to correct it.

#### Famous artists want to help you

Now a group of famous artists want to bring you this kind of help, no matter where you live or what your schedule. They've developed a way to teach you right at home the secrets of drawing and painting with real professional skill.

Among the famous artists are Norman

#### Find out if you, too, have art talent. Send for our free test

To help you find out whether you, too, have the talent to develop professional skill in art, the famous artists have created the fascinating Art Talent Test shown at right. It is offered free, and will be graded without charge by a member of the School's staff. If you do well, or can offer other evidence of art talent, you may enroll for training. But there is no obligation to do so. For a free copy of the test, and a brochure describing the School, just fill out the coupon and mail it in an envelope today.

Rockwell, Dong Kingman, Bob Peak, Fred Ludekens and a number of others. They've long known that there are talented people everywhere who could become, and should become, artists—but who don't do so because they can't overcome the drawing "road-blocks" in their path. Some of these people think it's a lack of talent that's holding them back. Others realize they have talent, but can't leave their homes or jobs to get the training they need to develop it.

#### A practical answer to this problem

To help such people, the famous artists formed the Famous Artists School. Taking time off from their own careers, they poured everything they knew about drawing and painting into a priceless series of home-study lessons. They illustrated the lessons with over 5,000 drawings. And they devised a method of constructive criticism that is almost as personal as private tutoring.

Each assignment you send to the Famous Artists School receives the individual attention of an instructor who is himself a working professional artist. He actually draws or

paints his suggestions for improvement, and then writes you a friendly letter of specific advice and encouragement.

This method of personalized training has helped hundreds of people who were once awkward amateurs to become polished professional full-time and part-time artists.

#### They went from "debblers" to successful professionals

Take Mrs. Nancy K. Houston, of Manchester, Ga., for example. A few years ago, she had "absolutely no knowledge of how to develop my small latent talent." Today Mrs. Houston sells portraits to people as far away as New York, Texas and California. Anthony Fotia, of New York City, was a mail clerk, "stuck" in a low-pay routine job. Today, he's an artist for an important printing firm doing exciting creative work. And Mrs. R. G. Des Ermia, of Escondido, Calif., changed from a "nameless, faceless dabbler in art to a recognized professional." Now she averages \$1,500 a year from all the part-time art work she has time for.

Reading is the fun thing these days. Since Carol Martin (brunette) and Sherrie Wolfe are hip, they naturally want in on the fun.

#### NOTHING LIKE

#### A GOOD BOOK

Sherrie prefers science fiction. "My hero was always Buck Rogers," she adds. Carol, on the other hand, is a bug on romance books... "because they have happy endings." The girls have set aside Thursday nights for several hours of hard and steady reading. Since they are at their apartment and quite alone, naturally they wish to be as comfortable as possible. What more sensible way than as you see them now?

While Thursdays, as they said, are reading nights. Tuesdays are devoted to exercise—the book-on-head bit. Great for the neck. Sherrie also claims it gives you a muscle-bound scalp!

# WORTH A A BATTLE

In this day of mixed emotions about what is worth fighting for and what is not worth a fight, it's kind of hard for the average guy to make up his mind just where to draw the line when it comes to a showdown or a confrontation. And although learned historians would have us believe that most wars are fought over un-sexy old real estate, there are a few who have a sneaking suspicion that this is not entirely true. For example: Helen of Troy had a face that launched a thousand ships into war. And right here is another fine example. She's the smooth and shapely Justine Battle, and once you've met her you'll agree that she's really worth fighting for!

Although I'm not a flower girl or a yipple, I do love all kinds of flowers and the feeling of freedom when I'm nude."

"If people spent more time enjoying nature, they wouldn't try to destroy it," she says.

"I'm one Battle who loves peace," says the jovial Justine, "War is such a waste of everything, including the males,"

#### **GETTING TO KNOW HER**

Take a long-g-g-g look at a genuine corn-fed blonde from Nebraska. Her name is Roselle Powell, age 20. As you can see Roselle has a lovely back, pretty toes, too. But when gazing upon a naked minx a male is prone to want to see more than just her back and toes, right? And you will, by simply turning the page!

Getting to know her or you, is how the old song goes. So we asked Roselle and got this reply. Hips, 35., waist, 22., and bust, a bountiful 37.

Roselle was born in Lincoln, attended the local schools, and is now working in a downtown area greeting card store

open sky-and it is in Nebraska that she intends to stay Even so all is not roses and Roselle does have a complaint

"Men, the local men!" pouts this blonde-haired beauty.
"They're my chief complaint. Would you believe I have to almost hog-tie a guy before he'll come on strong. I wish for a change I had a date who'd give me a hard time of it!" That's her squawk. Maybe some of you fellows could help her out. For sure, a girl like Roselle deserves MORE than she's getting!

When your steady bird tells you her measurements, how much do you really find out? Not much really. Roselle gives her bust size as 37 inches. Now another female might read off a whopping 47 inches and might still be as flat as a 2x4 if she has a broad back. To coin a popular cliche: "It's what's up front that counts!" So the next time don't asktape rules, you can inform your girl, are grossly inaccurate besides misleading. Only way a guy can be absolutely sure of his bird's endowments is via a visual inspection. And most females, you'll find, are understanding creatures. They know how nagging doubts can upset their man. So much for today's lesson in female anatomy. Your editor here enjoys throwing in helpful tidbits here and there for the benefit of our beloved readers. By the way when Roselle says 37 inches, my friendforget about the back syndrome!

If you're tired of hearing about the militant women's activist movement, then your appreciation will double as you look at jet-lined Julie Martin. (above foto)

The only movement a beauty like Ursula Bonay is interested in, is a move outdoors where she can enjoy sun and air like she's doing in pic above.

In the foto on the left is luscious Liz Sims who is stacked like the new-mown hay on her uncle's farm. It's where she goes to bail out of town

And Jessica Chatterton gets that happy and healthy glow by spending most of her off-hours working for the Sierra Foundation. She says, "If you're going to fight for something, fight to save Mother Nature."

Lissome Donja Leba digs the great outdoors so much that she's a girl guide in a mountain resort. It's a shame that she knows the area so well as it would be real fun to get lost with her.

Mae Fielder here is the choice that most guys would make for the girl they dimost like to be saved by—she sia swimming instructor and life guard at a kids, camp

#### READY FOR A SHOOT-OUT?

Not a bit gun shy is Sally Milner as she bares a beautiful pair of 38's and whips her trusty Cott from her well-upholstered hips. Sally's a Wild West nut who can name every character who ever appeared in "Gunsmoke," "Bonanza" or "Have Gun, Will Travel." She dreams of starring in a TV out-burner herself.

She's 38-23-37 caliber in bust, waist and hips—which means Sally has enough ammunition there to score a direct hit.

Marshal Dillon spells "Man" to Sally, and Wyatt Earp can put handcuffs on her any time he has a hankering to do so!

"Once upon a time there were three little bares and they all worked together, lived together and slept together. Everything was going along fine until one day their papa bore decided to check up on them to see if they were sleeping with anybody else and that opened a new can of porridge."

Naturally the third little bare was not going to let the blondes have all the fun so she decided to check out this friendly wolf to see what all the howling was about. So she slept over too

The mains that the two little blonde bares wanted to find out if blondes have more fun than other bares so they set out to find the friendly wolf who sure sleasy to locate if you're looking for fun. The first little bare found his detaks too hard and his bed too soft, so she spent the night in his lair. The other little bare met the same wolf at a party and agreed to go for a skinny-dip. She found the water too cold and his bed too warm. It was the same story

This adult type fairy tale is all part of the plot in a new skin flick called, "A Fairy Tale For Adults." The story concerns a very wealthy and famous fashion designer who has designs on his three lush and lovely female assistants. Unfortunately Henry Wakefield, our wily wolf in the "she's clothing business," is lying flat on his back in a hospital bed with a malady that his doctors have diagnosed as terminal. While waiting for death, he decides to settle his estate, leaving all of his wealth to his three swinging assistants. Of course there has to be a catch in it—a proviso stating that if they want to inherit all that bread, they must never have intercourse with a man. Next, to test them he hires a handsome lothario to woo and wine the women so that he can check out their loyalty. The story continues with him trying to break down each of the gals.

As the setting changes from swank hotels to fabulous cabana clubs to intimate and torrid love scenes—all bathed in gay and exciting color—we see our impostor break down the resistance of each gal while he breaks the will of Wakefield, thus leaving each, in turn, cut out of her inheritance. Of course, with so much fun and frolic going on, it wouldn't be fair not to have a happy ending to this sex romp. So, meanwhile, at the hospital

The doctors are chagrined to find that they have erred in diagnosing Wakefield's illness and actually he is well enough to leave the hospital immediately—and in the pink of condition.

The film ends up in a wild encounter—with all of the principals having a ball—which all goes to prove that where there's a will there's always a way a swinger will cheat.

And meanwhile, back at the girls, Wakefield's will-breaker's been busy getting the gals to break their promises again and again. Enter Wakefield to learn that his swingers have swung.

Anna's start in the picture business was a little different than most gal 'discoveries.' She went as a substitute baby-sitter for her room-mate. The baby's daddy turned out to be a pix producer.

The strange flip of fate was that Anna's room-mate was the one with ambition to become an actress. When Anna came home and told her the baby's dad just offered her a screen test, the poor gal fainted.

"The funny thing about it," smiled Anna, "is I really didn't want to do the baby-sitting bit, either, but I let my roomie talk me into it. She had a date to see a Dodgers' game."

Anna passed her screen test with kudos from all of the crew in the viewing room. I was so nervous I'm sure I didn't hear a word," says she.

Everything is working out great, Anna said. 'Lee—she s my roomie—is helping me to learn acting and im getting her a lest at the studio.

Anna's lovely features are often compared to the soft, classic and striking beauty of the former film star, Hedy Lamarr. She doesn't mind.

When asked how she feels about babysitting now, she said, "I feel like a politician. I'd like to kiss that baby!" What! You need a baby-sitter?

# Sun Dreams...

Our own girl-watching camera picked up this candid shot of a sun-worshipper on the Miami Beach shore. are a secretive lot it seems. However, we thanked her for the photo and the chance to share it with you. no last name, and she told us that she hailed from "somewhere in upstate New York." Sun-worshippers What she may be dreaming could well be anybody's guess. She identified herself simply as Helen,

And talking about wild stem-wear. Alta is one little pussy cat who's never on the fence. If you re not one of the lucky guys who've met her—it's a tough break

Alta Glass wears well with everyone and her sparkling personality shines through those gorgeous Glass eyes every time the fotog gets set to make a contact with his lens.

See a Glass in full color on page 44.

In this series of photographic and photogenic studies of perfectly-proportioned Dorothy, she draped her figure with various items she found all around the fotog's studio.

When a gal has a figure like the super-structure of super-Venus, you can drape her shape in just about anything, from boa to bunting, and it still won't hide any of her outstanding lush lines.

Dorothy has the kind of zappy shape that figure fotogs like to explore from every camera angle. As the old saying goes, "Every pose is a picture and every picture is a brand new development."

When Dorothy Otto was a little girl-which is hard to imagine, if you see her very grown-up body today-she studied ballet, which accounts for her graceful pose-ability. After Dorothy outgrew ballet classes, she decided that she would become a figure model. She's one of the best. Along with her work as a top in her field. Dorothy—she hates to be called Dotty"—attends classes in fashion design, "After all," says she, "the career of any model is short-lived, so I'm going to have something to fall back on." And there's a switch. Eventually she'll drape other gals' shapes.

# WHAT REALLY MAKES A GIRL SAY YES OR NO?

Susan Gay: "I would have to vote for a man's technique. That's where it's at. Some men I've dated have looked like first cousins to Count Dracula. But could some of them ever make me defrost!"

Judy Kelso (above) A gun maybe I ve never really said yes to any man' My mother always told me good girls hold a man off until after the wedding. In my opinion that's what will make a girl say yes. Vera Novak (left). Oh I completely disagree with Judy I think men are beautiful! But what makes a girl say yes. (and with a smile). Well, if you have to ask her, you can just bet the answer is no!

Monica Gayle: "Are you out of your skull? It's up to the guy really. He has to make a girl feel sexy. Otherwise it's no go!"

Marjorie Allen: "I've been out with an idiot who wanted to make love in a cab on Fifth Avenue; another who got passionate while riding up an elevator in the Empire State Building. Talk about nuts! So I'd say a vacant apartment would be a prerequisite." Rena Mark (right): "I've heard of some awfully stupid surveys in my life but you fellows really do take the cake!"

Marie Mont: Seems as if every male I get turned on to is married Usually I don't find out till later."

Magda Kemper (above): "Money. Plain and simple and lots of it. If a man has that—just show me a girl who's not greedy!" Trudy Morey (at left): "That's a good question—what makes a girl say yee' But I'm afraid I can't answer it. It would give me away far too much!"

### SNAP, CRACKLE, POP!

As any expert in nutrition will tell you, there's nothing like a staple dish. And that's why Dolly Staple is food for thought.

She's usually a packet of energy and digs most outdoor sports, but every so often she likes to relax and take it easy around the house. As she puts it, "Once in a while play it cool and stop to re-fuel." Cereally speaking, Dolly has plenty of that snap, crackle, pop that puts a break in your breakfast and a stalk in your walk

"The best way to fight fatigue," says Dolly, "Is with a sensible exercise program and learn to relax whenever you can. But above all, eat a good breakfast—it's your most important meal." Her formula must be a good one from the way she's shaped up. She's a well-balanced treat in any super bowl and naturally sweetened.

In case you've been wondering why we call Dolly Staple the snap, crackle, pop girl, here's the real reason; Dolly works in the quality control department of one of our large cereal manufacturing firms where she's very pop-ular.

## AMERICA'S SEXIEST NUDIST COLONY

Sun Villa, an hour by car from San Francisco is a special sort of nudist retreat—that caters to "singles only." Girls? In a state where the fairer sex outnumbers the lads 2 to 1, what do you think? You'll find secretaries, models, coeds and salesgirls, from 17 to 28. They—along with male singles—come to soak up the sun and to do their thing (whatever). Cost for a 3-day weekend is \$55,double occupancy. There's a pool, tennis, horseback riding (or chess for the weak and weary), and for lack of something better one can partake of the abundant, orb-pleasing scenery!

Tina the apple muncher (top left), was introduced to nudism at Sun Villa by her sister. June, just above. June has been a nudist nearly two years, whereas Tina before was always reluctant to try it. Now both are devotees. Tina is a corporation secretary: June, an as-yet undiscovered film starlet.

Imagine, all this and at economy rates too! Sights such as the shapely sunworshipper below are plentiful at Sun Villa. To join you need only to be: (1) single and (2) appreciative of the nude figure. And since fair is fair, you will have to be naked too. Our fearless fotog was also required to strip. He's a real trouper!

The Area Consisters, but they do share an apartment together in LA Both are airline stewardesses. Barbie (1) was charred my last stay here (1) while Carol just stays happy

 something to a girl's diselectron as well

Actress Jan Cable is also a member. While well-known for giving glamor fotogs a hard time. Miss Cable didn't object one to this shot, surely the most revealing ever taken of her

Although there's lots of scenery for camera bugs—and cameras are allowed—the pool is naturally the choicest local. Blonde-haired pussycat here seamed totally oblivious to flicking camera shutter. Apparently she was having too much fun to take notice.

After a 3-day weekend at Sun Villa, it's understandable why a guy might well need a hefty dose of Murine—for eye strain! And our ever-dedicated fotog had to get into pool for this closeup photo.

It was the fellows who suggested it, and the girls were happy to go along—a Mies Sun Villa Nudlet 1970. While 21 shapely nudes intered the contest, bee four charmers among finalists.

Having earned her first degree as a Master of Arts, Alta is now going for a Master of Science. A word of caution. If you should be lucky enough to meet her, don't try to give her the third degree. You've just met your master.

If you plan to go anywhere or do anything with your life, you must start with a good educational base." says aesthetic Alta, but all the degrees in the world are not quite as important as what you learn with one lord and master."

## Raising A Glass

And let's propose a toast to our colorful and excitingly mod type of cover girl. Here's to her well-rounded background in the fields of arts and science. This semester finds her going for another Master. Here's to Alta Glass.

## Who Wouldn't Be Hers?

Any muscular male who wouldn't go for a luscious lollypop like the tasty and beauteous Barbara Allison must
be living in a split-level head. This delectable doll
is a veritable one-gal candy store of goodies. Barbara
works in one of Manhattan's finest art galleries and
lives on Long Island's North Shore, near Manhasset.

The bouncy and bubbly
Barbara is as much at
home in front of the
camera as she is when
she is behind it. Her
favorite avocation is
photography. She plans
to become a lens gal.

These fotos are the result of a "no-show" on the part of the model who was originally scheduled to be photographed. Seems she took sick at the last minute, leaving the fotog with his lens cap down. So, turning to the built and beautiful Babs, who was assisting him, he said, "You're it, luv!" And brother, he sure said an eyeful.

# Progressive Peeling...

When you get sunburned a little at a time, that could be called progressive peeling. The same might apply to paring an orange a peel at a time. But when you watch the antics of the curvy sexpot, Paulette Vire, as she does her a-peel-ing act, man! that is really progressive peeling.

This Vire is a live one when it comes to the fine and gentle art of removing the raiment. And there's nothing like a cute tease that'll please even the jaded jungle John.

As this tempestuous teaser continues her take-off, you suddenly become aware of the shape of things to come—and it's some shape.

Though this coquette named Paulette, says she still hasn't met her "Mr. Right" yet, you can sure make a bet, that her sights are set, and she surely will get, whom she wants in her net. That's no idle threat.

Paulette says, "The trouble with a lot of marriages is that couples get into a rut instead of a groove." But she,ll keep her hubby reeling with progressive peeling!

# BALLOONACX

"When things don't go right and you start to get uptight, don't blow your cool, blow up a balloon," suggests well-rounded Robin Stodig and her balloony girl friend, Julie Huntington. The gals say.

Blowing up balloons is a gas and at the same time you're helping to beat the inflation rap, 'cause, like, air is free." These built and breezy beauts are ballooning out in the country-fresh air.

It's up-up and away with her beautiful balloons as Julie blows up her inhibitions and basks in the buff-enjoying the bright sunlight and the colorful balloons. She waits all week for a chance to get out of the city and head for the Hollywood hills where she can escape to nature sicilar ground, away from the smog and the stilling polluted air.

"What's a blow-outing in the country without a bunch of balloons to give you a lift? says Robin (above). There's so much lunacy around these days, we're adding another one to the list and calling it balloonacy, adds Julie (below).

bubble-head because I get such a blast out of balloonery, but they won't burst my bubble with that kind of hot air. Y'know, I saw that picture, "Around the World in 80 Days," and I thought, Wow! what fun it must have been to go up in those BIG gas-bags!"

If taking a trip in a big balloon is a gas for Robin Stodig—we dig! After all, with everybody doing their thing today, why can t she get a blast out of doing her thing with balloons? It is a lot safer than psyching out on a high with a hallucinogenic. Besides, Jules—Five Weeks in a Balloon—Verne would love her

# Hot For Hats

wanted for her tepee. The opera hat above cost a high note.

This straw hat ain't hay, either. She says it's the last straw in one of her summer collections. You gotta talk turkey in this straw.

Show hate beep coming back and they're in style every summer. When a guy wears more than one hat it means that he's hateling down several jebs, but when Lydia wears several hats it means she's holding up traffic. What guy would look at the hateling she's wearing that wild body? And here's the topper; she insists that a woman isn't really dressed without a hat

# THE DOUBLE LIFE OF A MODERN LOVE GODDESS

First we will digress upon brunette Bonnie, a product of Miami. Bonnie, 22, d been a college librarian for two years but after a while began moonlighting as a fotog's model. Now we stray to Judy, of Hollywood, same age, and a blande who far the past four months has been an office assistant in a real estate gency. Judy's folks had been in showbiz, and this lass has a bit of talent herself. Hoping to act, she'd taken an initial plunge into the glamor field by posing for still shots—as here. Both of these charmers have a lot in common ach had a boring job but they were both a wee bit scared to pursue full-time what they really want to do. What do you think—would they make it?

(see next page)

Imagine walking
into your local
library and finding this behind
the desk. Nude
librarians, that's
what will save
the country! We
could rate the
branches like
movies—Branch
x Branch GP....

It is our learned opinion that some girls shouldn't wear a suit, not even a bikini. Judy and Bonnie are excellent examples. Problem is not many beaches are topless.

Judy meanwhile enjoys
the California sun in
a friend's pool. "I usually skinny dip," she
says, "because I have
this problem with bathing suits—especially
the tops—they're
always too small!"

Two girls—a brunette librarian in Miami and a blonde secretary in Hollywood—and both are begging for an honest and frank reply from our readers to their question. On the West Coast there's Judy who wonders whether she's talented enough to quit her job to become an actress. And in Florida there was poor Bonnie, a librarian who'd been criticized by squares for her too short minis.

Bonnie worked part-time as a fotog's model, and wondered if she has 'what it takes' to be a model full-time. Two lovely young things on opposite shores, distraught and hungup with identical problems!

Aside from being a pretty neat work of sculpture herself, Junoesque Jan loves to collect copies of the works of all the famous masters. She said, "Naturally I wish I could afford the originals, but actually I'm happy just to be able to own copies, And let me tell you, some of them are expensive. The Kiss cost me \$85.00." (Come now, Mr. Rodin!)

Taking her cue from the Rembrandt masterpiece, "Aristotle Contemplating the Bust of Homer," the generously endowed Jan spends a quiet afternoon contemplating what Rodin had in mind when he sculpted "The Thinker" in his thoughtful pose.

This sensuous senority is a toffid temptress from the terrid zone on the Gull of Mexico. Her hometown is Jalapa, the state capital and chief port.

## **Torrid Zone**

The Venus of Milo or Melos may be on display in the Louvre, but she is still only a marble statue compared to this live and lovely Venus from Vera Cruz.

The zappy Zita Franco is a recent import from Mexico.

Zita recently shifted from the warm climate on the eastern coast of Mexico to the warm west coast of the States, She now lives in Los Angeles where she plans to go to U.C.L.A.

There's nothing chilly about this hot little chili pepper, 'cause she's the sizzlingest Mexican subject since Pancho Villa. And you can believe that she has the males all sighing for her "Si!"

Actually, it really wouldn't make any difference where Zita Franco decided to live—wherever she is, she creates her own torrid zone. She's a Mexican spitfire who loves to sing, dance and play Flamenco guitar. You can practically watch the temperature rise when she starts to sing and do her native Mexican dances. "I love the activity in the States," says Zita, "but I still like the afternoon siestas."

## Lass in the Grass

When a delectable doll like curvaceous Carol Peters goes for an outing she's a real sun dance kid. The camera eye catches Carol as she cavorts on the countryside, bringing beauty to the bucolic background. And this lass in the grass is class in the grass.

Captivating Carol is a California sun-kissed peach who, when she is not romping in a reed field, is reading her lines for flicks and TV.

As she spends a great amount of her working time in front of cameras, Carol is interested in getting out of town on weekends.

"You'd be surprised at the money I save by not having to buy lots of makeup. I let 'Old Sol' put on my no. 7 pancake," says copper Carol.

That lucky old sun got nothin' to do but apply a nice even coat of tan all over Carol's fancy figure. So no wonder it beams!

Cherie, measuring 38-25-37 inches, always locates a secluded section of the beach. When she sunbathes, she does it in the same way that she does any other kind of bathing-in the nude. But take heart. Cherie blisters easy, so she invariably needs someone nearby to apply the suntan lotion.

Cherie Olson is a beach bug. See the beach? See Cherie?
